

Copacabana Room - B. BRAUN

**“Drug-Eluting Balloon Catheters in Cardiovascular Medicine:
From Clinical Studies to Daily Practice”**

International Faculty

Martin Unverdorben, Germany

Chairman

Valter Correia de Lima, Brazil

Panelists

José Armando Mangione, Brazil

Marco Vugman Wainstein, Brazil

Marcos Antônio Marino, Brazil

Maurício Rezende Barbosa, Brazil

Pedro Alves Lemos Neto, Brazil

Catamarã Charitas

Lagoa Rodrigo de Freitas

Ipanema Room - III “Dante Pazzanese” Image Symposium with the unrestricted grant from Boston Scientific and Line Life

Session I

Intravascular Ultrasound, Virtual Histology, Optical Coherence Tomography and New Imaging Modalities

Chairpersons

Alexandre Abizaid, Brazil

Amanda Guerra M. R. Sousa, Brazil

12:15-12:35 PM

Optical Coherence Tomography: Validation Studies and Pre-Clinical Evaluation of New Coronary Devices

Juan F. Granada, United States

CRF - Columbia University, United States

12:35-12:55 PM

A Shift on Evaluating Clinical Efficacy and Safety of Drug-Eluting Stents: From Intravascular Ultrasound to Optical Coherence Tomography

José Ribamar Costa Jr., Brazil

Instituto Dante Pazzanese de Cardiologia, Brazil

12:55-01:15 PM

Detecting “Vulnerable Plaques”: Is This a Reality Already?

Pedro R. Moreno, United States

Mount Sinai Medical Center, United States of America

Session II

Imaging Modalities for Non-Cardiac Interventions

Chairmen

José Eduardo M. R. Sousa, Brazil

Luiz Alberto Mattos, Brazil

01:15-01:30 PM

Angio-Tomography: Growing Usage for Non-Cardiac Interventions

Ibraim Masciareli Pinto, Brazil

Instituto Dante Pazzanese de Cardiologia, Brazil

Session III

Clinical Case Discussion

Chairpersons

Andréa S. Abizaid, Brazil

Fausto Feres, Brazil

01:30-02:00 PM

Presenter

Ricardo A. Costa, Brazil

Panelists

Costantino Roberto F. Costantini, Brazil

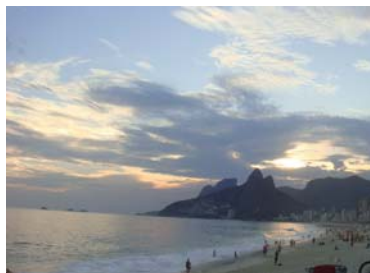

Dimytri Alexandre A. Siqueira, Brazil

Pedro Alves Lemos Neto, Brazil

Rodolfo Staico, Brazil

Ipanema 2 Irmãos

Ipanema

Grumari Room - CELLOFARM

Update on the Therapy of Acute Coronary Syndromes

Chairman

Gilberto Lahorgue Nunes, Brazil

12:15-12:45 PM

The Importance of Antiplatelet Therapy in Improving Myocardial Perfusion

Charles Michael Gibson, United States

12:45-01:15 PM

The Need for Reliable Data in Acute Coronary Syndromes Evaluation in Developing Countries

José Carlos Nicolau, Brazil

01:15-01:45 PM

Acute Coronary Syndrome Treatment Strategies and Early Use of Tirofiban in the Appropriate Patients

Efraín Gaxiola, Mexico

01:45:02:00 PM Questions & Answers

Barra Room - FERRER

Scientific Developments and Clinical Practice with Bivalirudin in the Percutaneous Coronary Intervention and in the Acute Coronary Syndromes

Chairmen

López Minués, Spain

Angel Cequier, Spain

12:15-12:20 PM Introduction

Angel Cequier, Spain

Hospital Bellvitge, Barcelona, Spain

12:20-12:45 PM

Scientific Evidence in the Percutaneous Coronary Intervention: From Replace 2 and HORIZONS Trials

Liliana Grinfeld, Argentina

Hospital Italiano de Buenos Aires, Argentina

12:45-01:15 PM

Scientific Evidence in Acute Coronary Syndromes: Lessons from ACUTY Trial

Robinson Vásquez, Venezuela

Hospital de Clínicas, Caracas, Venezuela

01:15-01:45 PM

Scientific Evidence and Clinical Practice with Bivalirudin

López Minguez, Spain

Hospital de Badajoz, Badajoz, Spain

01:45-02:00 PM Discussion

Copacabana Room - ABBOTT VASCULAR

**Drug Eluting Stents and the Future of Recanalization Therapy:
A Review of Current Stent Platforms, their Safety Profiles
and Future Therapy Evolution**

Chairman

Pedro Alves Lemos Neto, Brazil
Instituto do Coração INCOR-FMUSP, Brazil

12:20-12:45 PM

Key Considerations for Selecting a Drug-Eluting Stent

Luiz Alberto Mattos, Brazil
Instituto Dante Pazzanese de Cardiologia, Brazil

12:45-01:10 PM

Drug-Eluting Safety Profiles: A Review of Clinical Data

Exedito E. Ribeiro Silva, Brazil
Instituto do Coração INCOR-FMUSP, Brazil

01:10-01:35 PM

The Next Generation of Drug-Eluting Stents: The New Platforms

Marco A. Costa, United States
University Hospital - Case Medical Center, United States

01:35-02:00 PM

Abbott's Vascular Bioabsorbable Program

Richard Rapoza, United States
Divisional Vice President, Research and Development, Abbott Vascular

NOBORI™ Symposium - Evidences from a New Generation of a Drug-Eluting Stent

Chairman

Jean Fajadet, France

Panelists

Fumiaki Ikeno, United States

José Armando Mangione, Brazil

José Nogueira Paes Jr., Brazil

Miodrag Ostojic, Serbia

12:15-12:20 PM Welcome

12:20-12:40 PM

NOBORI 1 Trial: Tree-Year Follow-Up

Jean Fajadet, France

12:40-01:00 PM

The NOBORI Core

Miodrag Ostojic, Serbia

01:00-01:15 PM

The Brazilian Initial Experience

José Nogueira Paes Junior, Brazil

01:15-01:30 PM

NOBORI 2 Trial: Protocol Overview, Current Status and Future Clinical Program of Evidences

José Armando Mangione, Brazil

01:30-01:45 PM

Drug-Eluting Stent Development Update: The Limitations from the First Generation and The Benefits from the Second Generation

Fumiaki Ikeno, United States

01:45-02:00 PM Discussion

ENDEAVOR RESOLUTE™ Drug-Eluting Stent Symposium - A Glimpse into Future Technologies

Chairman

Luiz Alberto Mattos, Brazil

Panelist

Jorge Belardi, Argentina

12:15-12:20 PM Welcome

12:20-12:40 PM

The Role of Bare-Metal Stents in Clinical Practice: Where Are We Now?

12:40-01:00 PM

Current Challenges of Dual-Antiplatelet Therapy for Drug-Eluting Stenting

Fausto Feres, Brazil

01:00-01:10 PM Questions and Answers

01:10-01:30 PM

**What is the Role of New Drug-Eluting Stent Technology?
Addressing the Underserved Patients**

Alexandre Abizaid, Brazil

01:30-01:50 PM

Optimizing Drug-Eluting Stenting: The RESOLUTE™ Stent

Martin B. Leon, United States

01:50-02:00 PM Questions and Answers

Yukon Choice DES - Translumina. The Future of Drug Eluting Stents: is it polymer free?

Chairmen

Caiser Teixeira Siqueira Jr., Brazil
Mauricio Rezende Barbosa, Brazil

Panelists

Junbo Ge, China
Rainer Wessely, Germany

12:15 -12:20 PM Welcome

Lars Sunnavaeder, CEO Translumina GmbH

12:20-12:40 PM

Permanent, Biodegradable and Polymer-Free Drug Eluting Stents: The Chinese Experience

Junbo Ge, China

12:40-01:00 PM

Long-term Safety Issues with Drug-Eluting Stents

Maurício Rezende Barbosa, Brazil

01:00-01:20 PM

The Clinical Evidence of Polymer-Free Micro-Porous Drug-Eluting Stents: How to Improve Safety While Maintaining Efficacy

Rainer Wessely, Germany

01:20-01:40 PM

Brazilian Experience with Polymer-free Drug-Eluting Stents in the Real World Scenario

Caiser Teixeira Siqueira Jr., Brazil

01:40-02:00 PM Panel Discussion

Friday

12:15-02:00 PM

June, 12

São Conrado Room - GUERBET

**Update on Contrast-Induced Nephropathy
in Interventional Cardiology**

Chairman

Sérgio Luiz N. Braga, Brazil

12:15-12:20 PM Welcome

12:20-12:45 PM

ICON Study Final Results

Roxana Mehran, United States

12:45-01:10 PM

Pathophysiology of Contrast Media-Induced Nephrotoxicity

Pontus Boerje Persson, Germany

01:10-01:35 PM

Contrast Media: Clinical Experience in Interventional Cardiology

Marinella P. Centemero, Brazil

01:35-02:00 PM Questions and Answers - Conclusions
